

Start at V

Loop A = 4 miles

A + B = 8 miles

A + B to CP1 + C = 12 miles

A + B to CP1 + C to road crossing 3 then CP2 + D to road crossing 5, then CP1 (misses out the Loughborough Road section of loop C between road crossings 3 and 5) = 15 miles

A + B to CP1 + C to road crossing 3 then CP2 + D to road crossing 5, then CP1 + loop C again (this time a full loop from CP1 all the way to CP1 again) then homeward parts of loops B and A = 19 miles

A + B + C + D twice = 30 miles

You will always be travelling clockwise around the loops, so every time you go on to a new loop turn left!

Each loop is separated by a road crossing – so if you're not riding the next loop just carry on round the second half of the loop back towards home ☺
